Dear Howard:

The program that I had sent to you c/o the AIBS meeting at Ithaca was returned today "unclaimed"--- I gather you were finally unable to make it, and am sorry about that . I hope my keeping it from you did not inconvenience you.

The references to actinomycete instability that I had in mind during our discussion are:

Stanier, R.Y. 1942 J. Bact. 44: 555-570

Jones, K.L. 1946 J. Bact. 51:211-216  
1949 J. Bact. 57:141-145

Erikson, D. 1949 Ann. Rev. Microb. 2:23-54  
1948 J. Gen. Microbiol. 2:252-259  
and others *ibid.*

Andersson-Kott's older work is reviewed in Bibliographica Genetica, 8: 269-294, 1931. Some of it includes chloroplast variegations expressed in the gametophyte.

Thank you for your very welcome hospitality during our visit to Chalk River and Deep River.

With best regards,

Sincerely,

Joshua Lederberg
